

GI Associates in Knoxville, TN Selects gMed for Practice Automation

Gastrointestinal Associates, P.C. of Knoxville TN, one of the leading Gastroenterology practices in the United States, has selected gGastro™ from gMed for Electronic Health Records.

The 15-provider practice will integrate all three Ambulatory Surgical Centers and medical offices under a single platform.

“Our group has struggled with the EMR question. We knew a true EMR was desperately needed, both immediately and for the future,” said Gene Overholt, MD of GIA. “We took a year for our physicians and staff to review EMRs, for due diligence and for site visits. A major goal was full electronic integration of our 3 ASCs and offices, our EMR, our patient portal and our practice management system. gMed's integrated approach best met our needs. We are pleased!”

“GI Associates of Knoxville is one of the most prestigious and innovative groups in the nation and we are very pleased they have selected gMed. We expect this to be one of our most advanced Gastroenterology implementations,” said Joe Rubinsztain, CEO at gMed.

About Gastrointestinal Associates, P.C.
